

Type: FC1

Flexible Metallic Conduit

APPLICATION

Extra flexible metal conduit, general purpose for electrical installation, lighting systems, under floor wiring, fiber optic & instrumentation, security, underground projects, machines & plants connection.

STRUCTURE

Helically wound square-locked profile

MATERIAL

GL: Galvanized steel acc. to EN10346

SS: Austenitic Stainless Steel AISI 304/316

AL: Aluminium acc. to DIN 1784

•IP 40 acc. to IEC60529: type FC1

•Temperature range: -45° C to +300° C

Classification coding for conduit systems

Acc. To IEC 61386-23 : 435641402214
